ABOUT

I am a web developer and recent graduate of the Front End Web Development Career Path bootcamp at Thinkful. I love coding because solving problems and seeing ideas come to life on the page is supremely satisfying. I geek out on higher order functions, finding and learning awesome libraries or frameworks, and getting front and back ends to play nicely. I look to make difference by solving problems & applying technical skills.

When I'm not coding, I spend time with my kids & family.

PROJECTS

Restaurant Searcher

CODE • https://github.com/surbhiguptasai/CapstoneProject
DEMO • https://surbhiguptasai.github.io/CapstoneProject/
